Perch Light Wall

UMUT YAMAC

Made of folded paper and brass, the Perch evokes a feeling of freedom. Let the graceful bird swing and glow with joy. Just beware that it might just spread its wings and fly away...

Detailing

This sunlit bird is free to swing when softly touched. It gently glows and brings along the promise of spring.

Colours

Brass and white

Perch Light Wall / Large non-dimmable

Dimensions

Product

WIDTH 33cm | 13"
HEIGHT 51cm | 20.1"
DEPTH 18cm | 7.1"
WEIGHT NETTO 3kg | 6.61lbs

Packaging

WIDTH 45.8cm | 18"
HEIGHT 20cm | 7.9"
CUBAGE 0.06m³ | 2.23ft³
LENGTH 69cm | 27.2"
WEIGHT 2.5kg | 5.51lbs

Dimming & Lighting Control

0-10V

The luminaire is dimmable by using an either internally mounted or externally placed 0-10V dimmer switch. 0-10V is a dimming system widely used in some parts of the world, for example in North-America. This method will need its own wiring. Dimming quality is perfect, without flicker, the range can be limited and the luminaire can be dimmed to off. Please note that this is only possible using a 0-10V compatible driver. Contact us for more information.

Compatible models: Recessed Large dimmable 1-10V CE, Recessed Small dimmable 1-10V CE

1-10V

The luminaire is dimmable by using an either internally mounted or externally placed 1-10V dimmer switch. 1-10V is a dimming system widely used in some parts of the world, for example in North-America. This method will need its own wiring. Dimming quality is perfect, without flicker, the range can be limited and the luminaire cannot be dimmed to off. To turn off the luminaire a switch is needed.

Compatible models: Recessed Large dimmable 1-10V CE, Recessed Small dimmable 1-10V CE

Push / Pulse dim on Low Voltage (SELV)

The luminaire is dimmable by using an either internally mounted or externally placed low voltage momentary switch or pushbutton switch. This switch will need its own low voltage wiring. The switch should be of the type 'normal off - momentary on'. The luminaire dims perfectly when the switch makes and holds contact. A short press switches between on and off.

Compatible models: Recessed Large dimmable 1-10V CE, Recessed Small dimmable 1-10V CE

Potentiometer

The luminaire is dimmable by turning a potentiometer knob that is either internally mounted or externally placed. This dimmer will need its own low voltage wiring, hiring a professional installer is advised. The lamp is perfectly dimmable. Most knobs can be used to also turn the luminaire on/off.

Compatible models: Recessed Large dimmable 1-10V CE, Recessed Small dimmable 1-10V CE
