BT1091 CONFETTI PENDANTS

Originally created in the late 1960s, the BT Lighting Series was designed by Danish architects Claus Bonderup and Torsten Thorup. The three designs differ in size and shape but are united by their stylish simplicity and a common feature: a half-mirror light bulb peeking out from under the lamp shades. Revealing the light source in all the designs was a conscious choice for Bonderup and Thorup. As such, the sleek pendants acquire further visual appeal, while the half-mirror bulb reflects the light onto the white interior of the shades, creating indirect lighting.

SPECIFICATIONS

Bulb	Dimmable function	Cord	Suspension
Not included	None	3m black fabric wire: provided with shades in black, and polished brass 3m white fabric wire: provided with white shades	Included

	Socket	Watt	Voltage Frequency	Electric shock protection	Ingress protection	Recommended light source
